

Global Danışmanlık
Global Consulting

SİSTEM GLOBAL

Since 1996, we have had the opportunity to reach thousands of companies in the industry through activities such as training, analysis, reporting and consultancy. Consultants with a background in tax, risk and legislation management, engineering, and patents coming together and approaching companies and projects with a fresh, innovative and interdisciplinary perspective in an integrated manner has stood out as a distinguishing element for Sistem Global in its industry.

With our integrated perspective, we have been a companion to our customers in the phases of transformation of the idea to a company, the company to an SME, and the SME to a global company for the last 24 years. We are pleased and honored to serve our customers in more than 60 provinces in every region of Turkey indiscriminately, with our rich, bright and experienced staff.

We have observed the level of international success of the Turkish companies making value-added productions over the years. And now we act with the mission of helping local values become globalized and global experiences become localized with global offices! We continue to support companies that are excited about this mission as much as we are, and adopt the sustainable added value principle.

To cater to the current and future needs of our customers to provide them with maximum benefits without compromising our values, by using innovative business models and digital solutions with our global and local experience.

OUR MISSION

OUR VISION

To be an international counseling firm that creates value throughout generations on an innovative and global scale and builds a stronger Turkey.

OUR VALUES

01

Creating benefits for society and making them sustainable is our main principle in business life.

02

We are open to change and new horizons.

03

We see ourselves as reliable companions of our customers.

04

Committed to ethical values, we are genuine and transparent.

05

We lead the way in making our country and economy stronger.

06

We do our best to be equal and fair.

07

We seek continuous development for our employees and share our experience and knowledge.

08

We are stronger together, we create value in solidarity and by sharing.

09

We never discriminate, instead we believe in the strength that comes with diversity, and most of all we believe in strengthening the position of women in work life.

SİSTEM GLOBAL

LEADING CONSULTANCY AND AUDITING GROUP FOCUSED ON SECTORS INVOLVED IN R&D, HIGH-TECH AND VALUE ADDED PRODUCTION

1996

Foundation

Established in Ankara with 100% national capital

2002

Entry into the R&D Market

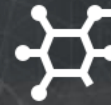

With the foundation of a branch in Istanbul, the company's business priorities become financial management, reporting and government incentive services, as well as R&D and high-tech.

2008

Integrated Services

This took place with a focus on four main areas:
Tax - Audit / Financial Consultancy / Risk and Legislation
Management / Grants, incentives and strategies for R&D Patents (intellectual and industrial property rights)

2018

Globalization

The first step towards the goal of globalization was taken with the opening of the Brussels office.
